

**Twelve Week Lecture and Laboratory Schedule:  
Advanced Psychological Science 320 at Curtin University 2011**

<b>Week</b>	<b>Lecture</b>	<b>Laboratory</b>
1.	Introduction to Qualitative and Mixed Methods Research	Developing a research plan
2.	Qualitative Data Collection	Interview schedules and information sheets
3.	Qualitative Data Collection	Interviewing
4.	Qualitative Approaches 1: Thematic Analysis	Qualitative Data Analysis
5.	Qualitative Approaches 2: Grounded Theory	Thematic Analysis using NVivo: Initial coding
6.	Qualitative Approaches 3: Phenomenology	Thematic Analysis using NVivo: Category development
7.	Qualitative Approaches 4: Discourse Analysis	Thematic Analysis using NVivo: Conceptual maps and Writing Up
8.	Qualitative Approaches 5: Action Research	Quantitative Analysis: Data File
10.	Assessing Quality in Qualitative Research	Quantitative Analysis: Data Preparation*
11.	Mixed Methods Research: Paradigm Perspectives	Quantitative Analysis: Data Analysis*
12.	Assessing Quality in Mixed Methods Research	Integrating Mixed Methods Findings
13.	Unit review	Exam preparation

Note: \* Students in this unit have completed previous quantitative research methods units
